### Background

On February 29, 2016, IFM Global Infrastructure Fund (IFM) and Nautilus Generation, LLC (Nautilus), filed a joint Petition with the Site Evaluation Committee (Committee) seeking approval to transfer membership interests in Essential Power Newington, LLC (EP Newington), to Nautilus. The joint Petition requested the appointment of a three-member subcommittee under RSA 162-H and an expedited review and approval of the proposed transfer of ownership interests in IFM to Nautilus. On March 28, 2016, an order was issued appointing a subcommittee.

According to the joint Petition, EP Newington owns and operates a 525 megawatt combined-cycle, dual fuel merchant electric generation facility in Newington, New Hampshire (Facility), pursuant to a Certificate of Site and Facility issued in Docket No. 98-01, effective May 25, 1999 (the Certificate). The Certificate was issued to and is currently held by, EP Newington (which was known as Newington Energy, LLC, at the time that the Certificate was issued). IFM itself owns 100% of the membership interests in Essential Power Investments, LLC (Essential Power Investments). Essential Power owns, through several wholly-owned subsidiaries, a 100% equity interest in EP Newington. Essential Power, LLC (EPLLC), a subsidiary of Essential Power Investments acquired 100% of the membership interests in EP Newington, and thus acquired the Facility, in 2008 after the Committee authorized the transfer of all membership interests in EP Newington to EPLLC in Docket No. 2008-01. A "Pre-Transfer Organization Chart" is included as an Appendix to the Joint Petition.
